Galena & Minnesota Packet Co.

ARRANGEMENT FOR

1854.

THE GALENA & MINNESOTA PACKET COMPANY will run a daily line of Boats during the ensuing season, between Galena, Dubuque and St. Paul, stopping at all intermediate landings, leaving Galena at 12 M. daily, except Sundays.

The line will consist of the

NOMINEE,	CAPTAIN R. BLAKELY,	
WAR EAGLE,	" D. S. HARRIS,	
GALENA,	" D. R. MOREHOUSE,	
ROYAL ARCH,	" H. GRUEL.	

All first class boats, and commanded by experienced and accommodating officers.

These boats will connect, at Galena, with the St' Louis & Galena daily line of Steamers, which line connects at Rock Island with the Chicago & Rock Island Railroad.

This Company's Boats being U. S. Mail Steamers, their punctuality can be confidently relied upon.

Freight shipped at St. Louis, or between St. Louis and Galena, on the St. Louis & Galena line of Boats to points above Galena, will be re-shipped at Galena free of charge for drayage or forwarding, and without delay.

The Railroad between Galena & Chicago, connecting with the various Eastern Roads, is now completed within a few miles of Galena, and the unfinished portion of the Road stocked with comfortable Stage Coaches.

The State Lunatic Asylum.

We find in the last Madison *Journal*, the law passed by the last Legislature, providing for a State Lunatic Asylum, and annex a synopsis of its provisions.

Section 1, Authorises the Governor to appoint three Commissioners to select and purchase a site, not less than 160 acres, *provided*, that if a suitable site can be obtained, at or near Madison, by gift or for $1,500, the Asylum shall be located at that point.

Section 2, Appropriates $1,500 to pay for such site, and directs how purchase shall be made.

Sections 3 and 4, makes it the duty of the Commissioners to cause suitable buildings to be erected on the site chosen, conformably to the plan of the Worcester Asylum, with such improvements and alterations as they may think necessary.

Section 5, authorises the Governor to fill vacancies in the Board of Commissioners, and to appoint a Superintendent of said Asylum, who shall be a well educated physician, and shall hold the office for the term of three years.

Sec. 6, The Superintendent to be, by virtue of his office, *Secretary of the Board of Commissioners*, and to execute a bond, for the faithful discharge of his duties.

Sec. 7, The Commissioners, as soon as the site for the Asylum is selected, to advertise for proposals for erecting the necessary buildings and to determine the time, manner and order in which they shall be put up.

Sec. 8 Specifies how accounts for work &c. shall be kept, audited and paid.

Sec. 9, Authorizes Superintendent to receive subscriptions and donations for the Asylum.

The next two Sections, 10 and 11, we copy in full and beg our readers to study them in connection with the remarks below.

Sec. 10. The aforesaid commissioners shall serve as such for the term of one year, unless sooner removed by the governor, and before entering upon the duties of their offices, shall take an oath to faithfully perform all the duties required of them by this act. They shall hold stated meetings at least once a month, and as much oftener as business shall require, at the office of the superintendent, or such other place as they may appoint. They shall keep a record of their proceedings, and shall report the same *to the Legislature* at the next session thereof, and shall receive two and a half dollars per day, while necessarily employed about the business of said asylum.

Sec. 11. The aforsaid superintendent shall receive twelve hundred dollars for the first year's service, and thereafter such sum as the legislature shall designate.

Sec. 12. Appropriates $15,000 for defraying expenses incurred under this act,

Section 13 and last directs that the act take effect from and after its passage and publication.

While we heartily approve of the object and general provisions of this act, we must again enter our protest against the appointments which have been made under it. By reference to the sections which we have quoted in full, our readers will see that the Act creates *four* Offices, to wit, three Commissioners and a Superintendent, who shall also be Secretary of the Board, vesting their appointment in the Governor. It has already been announced that Mr. VIRTUS, one of our State Senators, and Dr. BROWN, Clerk to the Senate, have been appointed two of the Commissioners, and that Mr. MCLANE, another of our State Senators, has been appointed Secretary to the Board and therefore Superintendent. Now we again ask the People of this State if these appointments are not open, palpable, inexcusable violations of the following article of our Constitution:

"No Member of the Legislature shall during the term for which he was elected, be appointed or elected to *any civil office in* the State, which shall have been created or the emoluments of which shall have been increased, during the term for which he was elected." (Section 12, Art. IV Constitution of Wisconsin.

The offices in question were "created" during the last session. Senators VIRTUS and MCLANE were members of the Legislature which created those offices. The terms for which they were elected do not expire until the 1st day of January, next. And yet they have been appointed by Gov. Barstow to fill the very places they helped to create! Can a grosser instance be found in our own or any other annals, of the abuse of authority, the prostitution of patronage, and the violation of the constitution by the Governor of the State? Will the people submit in silence to this outrage upon their rights, this deliberate infraction of the Fundamental Law? Will the Press refuse to speak out in indignant denunciation of this wrong to the law, this insult to the sovereignty of the State? If Governors may violate with impunity our Constitution, the highest human law, why should we elect judges to try, or build jails to punish common men, for offences against laws of far less binding obligation, and which they never took an oath to observe and support.

State Expenses.

The Madison *Democrat*, in its zeal to defend the last Legislature from the charge of extravagance, unconsciously helps us to a point which we had quite overlooked. It insists that the large appropriations which have been made for the State Asylums, the State Prison, and the Impeachment Trial, should be kept out of view entirely; and making its own figures, foots up the "ordinary and common expenses" of the state to $109,485.61, and adds that $110,000 is "*not above the average* per annum for the past 3 years."

Our sum total was $290,709,75. Deducting from this the appropriations mentioned above, we have remaining $196,820,86,—or nearly $87,000 *more than the average annual expenditure* for the past 3 years. So much for the first session under "Barstow and the balance."

We take no exceptions to the $10,000 contingent fund voted to the Governor. There are numerous small expenses—small generally in themselves, but large in the aggregate—which can be settled for by the Governor much more cheaply than by Legislative appropriations to such. Gov. FAIRWELL left vouchers for *his* expenditures from this fund, and Gov. Barstow will doubtless do the same.

ADMIRAL NAPIER'S ADDRESS TO HIS SAILORS.—Our despatches published yesterday morning came very late, the night before, and we were obliged to condense them into a small compass.

Admiral Napier's laconic address to the British tars in his Baltic fleet, reads as follows, in full:

"Lads! War is declared! We are to meet a bold and numerous enemy. Should they offer battle, you know how to dispose of them. Should they remain in port, we must try to get at them! Success depends upon the quickness and precision of your fire! Lads! sharpen your cutlasses, and the day is your own!"

The Fond du Lac papers gravely inform us, that the Valley Road is completed from Macy's residence to the state prison.—*Kenosha Telegraph.*

A correspondent of the *Wisconsin*, writing from Janesville, furnishes the additional information that this piece of road "pays very well."

The European War.

Condition of things on the Danube—Position of the Russians—The "Dobrudja."

We find the following in the New York *Tribune;*

The most important feature of the news from Europe, brought by the Arctic which arrived yesterday morning, is the certainty that the Russians have crossed the Lower Danube, some 50,000 strong, in three corps under the immediate command of Prince Gorchakoff, Gen. Luders and Gen. Oushakoff, and have occupied a part of the Turkish district of Dobrudja. This district belongs to the province of Bulgaria, and is a narrow plain inclosed on the west and north by the Danube,—which bends northwardly at Chernowoda, and makes a large detour before reaching its mouth,—and on the east by the Euxine. A large part of the district is marshy and liable to be overflowed; it contains several Fortresses, such as those of Babadagh, Isaktsha, Matchin and Tultcha, which it is stated have been captured by the Russians.

We have in preparation a map of the region of country about the Baltic, with the intention of furnishing our readers with an easy means of following the movements of the armies arrayed against each other in that quarter; but as it will not be ready for some days, we have compiled from accounts in papers by the *Arctic* the following description of the seat of war at the present time.

At the time of our previous accounts of the position of the Russians and Turks, the former were upon the north side of the Danube, scattered along a great distance, the different corps being posted at points between the mouths of that river and the entrenchments opposite Kalafat, having frequent skirmishes with Turkish outposts on the other side, and making frequent attempts to cross, which, for the most part, were signally defeated.

Did the Danube pursue to the Black Sea the Easterly course which it has at Kalafat, and so past Nicopolis Oltenizza and Silistria, the late movement of the Russians would throw them far into the Turkish territory. But in longitude 28°E from Greenwich, near the Turkish fortified town of Silistria, and still some 60 miles from the Black Sea, the Danube turns nearly due north, and so runs for about 100 miles, till, near Galatz, it again turns eastward, and, soon after dividing into various channels, empties into the Black Sea by numerous mouths. From near Chernavoda, some 40 miles below Silistria, the old wall built by Trajan, now in ruins, extended eastward to the Black Sea. In former days this was a strong fortification, and might still be of use, but a connected line of fortified towns, well garrisoned by the Turks, afford more efficient protection to their frontier.

The region included between the Black Sea, Trajan's Wall, and the Danube in its north and east course, is called the "Dobrudja." It is a province of Bulgaria, and, with the exception of the few towns along the Danube, is thus described in the London *Times:*

For ten hours steaming above the Sulina quarantine station, there is scarcely a human abode to be seen, except on the river bank. At the driest season the wide swamps scarcely afford a footing for the sportsman who goes after the water fowl. The gullsare as much at home there as on the neighboring sea. In the winter, under a strong easterly wind, there are actual wrecks, when the waters come surging over the land, knocking the trading craft of the Danube to pieces among the reeds. There are no rising grounds to encounter; for the whole district is as flat as the periodical subsidence of water can made it. Besides the mouths of the Danube, there are countless intermeciate and branching channels, and lakes and ponds, all bordered by shaking bogs. The whole region within that bend of the Danube is as desolate and uninhabitable as the Dead Sea Valley—with cold mists instead of hot glare, no more resources, a much worse footing, and a liability to an infinity of diseases. It is incomprehensible how artillery can traverse the soil, or how the heavy Russian soldiery can march, or where they can rest, and, above all, where they mean to go. It is often said that the Dobruja is probably much in the same state that it was when Trajan built its wall from river to sea; but there is reason to believe that it has much deteriorated. The last remains of old villages, hidden among rushes and long grass, so that the herdsman stumbles over them, are signs of habitation, once practicable, but no longer so; and indeed, it seems as if Trajan need hardly have troubled himself to build that wall, if the place had then been in its present condition. In the summer it admits of the grazing of scattered herds; and a group of ten, or twenty, or fifty vultures may show where a horse or a bullock has met its death. But how an army already incumbered and weakened with fever, ague and cholera, can traverse that space in warlike trim is inconceivable. Hence, probably, the reason why the crossing was so nearly unresisted. The place is anything but silent—for there is no silence where the water fowl so abound; and the herdsman's dogs, and, in the best weather of the year, the bleat of the sheep and the din of a multitude of singing birds in the scrub relieve the silence which broods in places too desolate for human habitation; but there are no paved roads, as in Roman times, to echo to the tramp of horses and men.

It is into this inhospitable region that the Russians have advanced. The crossing of the Danube was defended by Turkish forts of Hirsova, Matschin, Isaktcha, and Tultscha, and these points seem to have been forced between the 23d and 28th of March. From the very slight resistance which seems to have been offered by the Turks, there seems a plausibility in the remark ascribed to Omar Pacha, that "he was very willing that the Russians should get themselves into the trap." The account in the *Times* says;

"At Matschin the Russians suffered some loss by the fire from the Turkish batteries; but the Turks are stated to have evacuated their entrenchments in the ensuing night. At Galatz, Gen. Luders crossed in person without opposition at the head of thirteen batallions. Gen. Gutschakoff encountered a more vigorous resistance in his passage from Ismail to Tultscha, where the troops had to land under fire, and the Turkish entrenchments on the right bank, were taken by assault with considerable loss. Tultscia is not in a condition to offer a long resistance, for the fort which existed there till 1829 was destroyed by the Russians at the close of the last war, and the works which have been reconstructed are less favorably situated towards the river. Matschin and Isaktcha might have required more regular operations but they too, seem to have fallen, and they were too small and unimportant to offer any serious obstacle to the advance of a large army. The loss of Hirsova has yet to be explained.

Here then, until we learn further, the accounts leave the largest division of the Russian Army,—The Black Sea is under the control of the allied fleets. Behind the Russians is a Turkish force of 30,000 men, whose flank was turned in crossing the Danube, as well as of the garrisons of the Turkish posts above named. In front of them is a line of towns well garrisoned,—Silistria on the Danube, Kosteridje, Schumla and Varna—the former of them being so strong that on a former occasion it resisted with a garrison of 12,000 Turks, a seige by 50,000 Russians for 9 months.

French and English papers alike are puzzled at the meaning of the Russian movement. The Paris correspondent of the *Times* makes what appears to be the only reasonable suggestion, which is, that Prince Gorchakoff intended to strike, if possible, a severe blow at the Turks, before their allies could approach. We shall, doubtless, shortly know, whether impeded in their progress by the morasses of the Dobrudja, the Russians have been able to accomplish anything by their hazardous movement. It was known in England that reinforcements had already gone forward from Constantinople to Varna, and the British fleet was in the Gulf of the same name, watching the movements of the enemy.

The well informed London correspondent of the New York *Times* regards the concentration of the Russians to the extreme left of their long line, leaving the Austrian force of 150,000 men to occupy the province in a measure abandoned, as proof positive that Austria is secretly with Russia, and has given assurances that the retreat of the latter will not be cut off, in case of failure in their movement towards the passes of the Balkan mountains, and the Turkish line of defence.

We shall soon learn the issue of these movements, and possibly the detail of the *Asia's* news, which we shall receive in a day or two, will clear up the mystery. We shall probably soon hear stirring news from the Black Sea.

Meantime, while watching the progress of the terrible drama in which the crowned heads of Europe are to be the actors, and having our blood stirred with the clang of arms, and the crashing of contending hosts, our sympathies on the side of the Turks for their righteous cause, let us not forget that England is now, *with* France, putting forth her mightiest efforts to stay the progress of the gigantic power which, by the defeat of the Great Napoleon, she helped to build up; that Austria, treacherous always, will probably side as before with the party towards which victory leans; that Russia has not, step by step for 50 years advanced towards Constantinople, to be now driven back without a struggle; and that each and all of these great powers are contending for supremacy, or for the preservation of their own power. Let us not forget that, behind them all, is A PEOPLE, aspiring towards freedom from oppression, greater or less, and the possession of constitutional rights, and that the struggle seems to be at hand, not simply between the kings and Emperors of the West and the Autocrat of the North, but which shall decide the issue foretold by Napoleon, *viz;* that, in 50 years, Europe would be either REPUBLICAN or COSSACK.

EUROPEAN AFFAIRS.

Details of News by the Arctic.

RUSSIA.

From the *Daily News* trustworthy accounts from St. Petersburg state that the war is very unpopular among the mercantile classes; and that in consequence of this feeling an order had been issued forbidding the assembling in the streets of groups of more than two persons. The Russian loss at Turukai is stated at between 2,000 and 2,500 men.

It is stated that Omer Pasha had anticipated the Russian advance into the Dobrudscha and that the Ottoman force there was falling back according to order upon Trajan's wall, which is well fortified, and where the Russians will have to encounter about 60,000 Turks.

OBJECT OF THE RUSSIAN NAVAL MOVEMENT EXPLAINED.

VIENNA, Friday, March 31.

You were yesterday informed that the five Russian steamers with several vessels in tow, which had 4,000 men on board, had left Sebastopol, and we now learn what their destination was. On the 23d, nearly at the same time that the passage of the Danube took place, *the 4,000 men with artillery were landed on the coast between the St. George and Sulina mouths*, and have since been possession of the large island of Dunetze, below Tultsha. As soon as their task was accomplished the Russian vessels returned to Odessa, where they will probably report that nothing had been seen of the allied fleets. *The gallant Admirals are already standing bolts for the shafts of the Constantinople and Viennese millings.* The *Oest. Deutsche Post* learns from Orsova, that ever since the 15th, troops have been on their way from Shumla to the Dobrudsha. At present there are only 6,000 Redifs and 1,000 horse in the before-mentioned fortress. A regular bridge of boats is now about to be constructed between Widdin and Kalafat.

In the English House of Commons, April 5th, in answer to Capt. Scopell, Sir J. Graham stated that the report which asserted that the movements of the allied fleets in the Black Sea were crippled for want of coal, was incorrect. Since January 1st, 10,000 tuns had been sent to Constantinople, and 6,000 tuns are at Malta. It was expected that the whole fleet would in a few days again commence cruising in the Black Sea. Since morning, accounts had indeed been received that the fleet was near Varna.

The *Agram Gazette* states that a courier from St. Petersburg had arrived, bearing positive orders for the Montenegrins to attack the Turkish province of Herzegovina. Russian couriers are passing in rapid succession between Russia and Montenegro.

THE CZAR'S LAST PROPOSALS.

The following important dispatch is telegraphed:

"BERLIN, Monday, April 3, 1854.

"Prince George of Mecklenburg Strelitz arrived here yesterday, the bearer of a letter from the Emperor of Russia to the King of Prussia, in answer to the mission of Gen. Lindheim. Its tenor is as follows:

"When the Western Powers succeed in securing the emancipation of the Christians in Turkey by treaty, the Czar will be willing to evacuate the Principalities simultaneously with the evacuation of the Black Sea by the combined fleets.'"

The Russian positions in the Baltic.

As to the position of the Russians on the Baltic, a Prussian paper favorable to Russia, says: The Russian fleet has three strong seaports in the Gulf of Finland, Cronstadt, Revel and Sweaborg, (Helsingfors) Revel in Estlonia, and Sweaborg in Finland are the two positions which command the Gulf. They are fortified according to the most scientific principles. Extensive subterranean batteries cover the port of Reval and their crossfire can *destroy* any attacking fleet. Sweaborg is a series of rock fortresses, extended over six isles. It is the center of all the operations in the Gulf, and as impregnable as Gibraltar; in fact it is the first naval fortress in the world. Cronstadt is situated on the Kettle Island (Koltinoe cosa row) likewise a first-rate fortress, the work of Peter I; the fortifications are of granite. It is about sixteen miles distance from St. Petersburg, and covers the approach to the capital. It can be taken, but only at immense loss of life; and as the Neva is too shallow for men of war, Petersburg cannot be bombarded even after the fall of Cronstadt.

The Russian marine amounts in all to forty-five vessels of the line, thirty frigates, twenty-five corvettes and twenty brigs, besides the very considerable force of steamers and gun-boats, which the Russian inspiration places at four hundred or five hundred vessels.

The aggregate of the Russian crews it given at fifty thousand six hundred men; of whom thirty thousand eight hundred belong to the Baltic, and nineteen thousand eight hundred belong to the Black Sea fleet. The grand Russian three-deckers are, the Russia, of one hundred and thirty guns; the Twelve Apostles, of one hundred and twenty guns; the Three Saints, of one hundred and twenty, and the Warsaw, of one hundred and twenty. Admiral Prince Menchikoff is at the head of the naval staff; the Grand Duke Constantine is High Admiral of the Russian fleets; Von Kalenkog and Von Ricord are also Admirals. Among the Vice-Admirals are persons named Glasenass, Katechsloff, Von Berg, Nachimoff, Kumann, Melichog, Bogdenovich Van Pater, &c.

Gallipoli, the rendezvous of the French forces in Turkey, is a small Turkish town on the peninsula which forms the European side of the Straits of the Dardanelles, and sometimes called the peninsula of Gallipoli. It is a town of about 17,000 inhabitants, and is celebrated in history as being the first place in Europe captured by the Turks. The port is a good one. This town has always been the rendezvous of the Turkish fleets on their way to or from the Mediterranean, and it was there that they were to refit and be provisioned.

The Crossing of the Danube, and the position of the Russians.

From the Tribune's Correspondence.

London April 4, 1854.

On the 23d and 24th ult. two columns of Russians crossed the lower Danube. One under the command of Gen. Luders, started from Galatzt at the extreme northern angle of the Dobrodja; the other under Prince Gorchakoff himself, from Braila. They found little resistance, as the Turkish advanced force concentrated themselves in the fortresses of Isaktcha and Matchin. The Russians have invested the two forts, and advanced, according to the last news, up to Hirsova, on the Danube, while the Turks hold the hights of Babadagh, and have concentrated their principal forces between Karassa and Kostendje, on the narrow neck between the marshes of the Danube and the Black Sea. No serious conflict has as yet taken place. We do not know the exact figures of the Russian forces which have crossed, but it is believed that they amount to about 45,000 men. The Turks in the Dobrodja are under command of Mustapha Pasha, and amount to twenty battalions, or from 15,000 to 20,000 men, of regular infantry; 2,000 irregulars, on foot; one regiment of regular and one of irregular cavalry—altogether 2,500 horses—with forty cannons. Omer Pasha has a high idea of Mustapha Pasha's generalship. In a few days we may here of a conflict either at Babapagh or along the wall of Trajan, between Karassa and the Euxine.

THE ARMY OF THE EAST.

France is pushing forward its expeditionary force with the utmost energy. The Paris *Moniteur* of the 2d inst, contains the following announcement:

"His Majesty having ordered a body of troops to be sent to the Levant, the first convoy of vessels, frigates and corvettes of the Imperial Marine assembled at Toulon has already sailed, the convoy being divided as follows: Ships Montebello, Alger, Ville du Marseilles, and Jean Bart, 5,400 men; Asmodee, Ulloa, Labrador, Coligny, Meteore, and Gorgone, 3,450 men, 225 horses; Mouette, Eclaireur, Laplace and Infernal, 1,495 men, 40 horses; Caffarelli, Veloce and Brandon, 1,130 men, 20 horses; Napoleon and Suffren, 3,040 men; Montezuma, Panama, Albatross, Canada, and Titan, 4,663 men, 80 horses. This total, to which is to be added to contingent of the Christophe Colombe amounts to 20,078 men and 365 horses. Every day a portion of the 300 ships freighted at Marseilles leave with cavalry, munitions, provisions, and articles of encampment.

Prince Czartorski has addressed to Lord Dudley Stuart, an interesting letter on the reestablishment of the Kingdom of Poland.

On the 31st ult, Sir John Franklin and his expedition was struck off the books of the British Navy, and are given up for dead.

Professor Wilson, so well known as Christopher North, died on the 3d inst., aged 66 years.

Advices from Odessa, March 25, mention that the entire Russian fleet have left Sebastopol, and it was believed would attack Varna. Sir James Graham stated in Parliament on the 2d inst., the allied fleet had left the Bosphorus for Varna.

A council of Austrian generals is summoned to meet at Vienna. Among other invited are the Ban Jellalich and Count Giulai.

Diplomatic relations have ceased between Greece and Turkey. Gen. Metaxa, Greek Minister, has demanded his passport. Nesset Bey, the Turkish Minister, had quitted Athens, and returned to Constantinople.

REPORTER OF THE SUPREME COURT.—The rumor is current in this city that Mr. E. M. HUNTER, Private Secretary to the Governor and Senator from Milwaukee County, desires to add to these offices the title and emoluments of Reporter of the Supreme Court. The act creating this office, or fixing the salary, was passed at the last session of the Legislature, and, if we are not misinformed, was drawn up and advocated by Mr. HUNTER himself. We might cite the constitutional provision, already quoted by us, as a bar to any such appointment; but when the Governor sets the constitution at defiance, who shall regard it? There are, however, other and manifold objections to the selection of Mr. HUNTER for this post, which may prove more effectual than the easily broken cobwebs of a constitution.

THE NEBRASKA BILL IN OUR LEGISLATURE.—We find the following in the Buffalo *Courier*:

Good assurances are given that little or no countenance would have been given to these resolutions by the Democrats of Wisconsin or democratic members of the Legislature, except for the interpolation of the Clayton amendment, shutting out persons not naturalized or citizens, from participation in the organization of the Government of Nebraska.

All pure gammon! Nothing was known of the "Clayton amendment" as you term it (in reality drawn by Vice President Atchison, and presented by Mr. Clayton through courtisy,) when the assembly acted upon it. The Assembly by a two-third vote, expressed its condemnation of the principle of repudiating the Missouri Compromise in any way, or of allowing slavery to place its foot upon territory now free.

LARGE SALE OF SCHOOL LANDS.—We learn that Mr. JAMES LUDINGTON, of this city, and Mr. J. E. KELLY, of New York, late of the firm of Drew, Robinson & Co., have purchased *all* of the School Lands belonging to the State, now in market, at the appraised valuation. The amount is supposed to be about 60,000 acres and the average price not far from $1,25 per acre. These Lands have been in market, subject to private entry, about two years. The *News* of yesterday, alluding to this purchase, intimates that some of the State Officers are interested therein. We are assured by one of the purchasers that such is not the fact.—The speculation strikes us as a very good one.

AMERICAN SOAP COMPANY.—We understand that the American Soap Company of New York are about to open an establishment in this city, for the manufacture of the American Cream Soap.—Mr. ELIAS WATSON, who has purchased the right for this State, will conduct the manufacture, and expects to commence business about the 15th of May.

AN ADVANCE IN CIVILIZATION. In the midst of all the news of blood and carnage, present and to come, there is one paragraph, that, unimportant as it looks, chronicles an advance of Peace and Justice that has had no parallel in Europe. *Turkey guarantees to all the subjects of the Porte, without distinction of creed, perfect equality in law.*" In this the Mohammedan places himself a century in advance of his Christian enemy, and even of his Christian allies, in "doing unto others as he would that they should do to him," and not behind even the United States.—*Albany Ev'g Journal.*

RAIL ROAD ACCIDENT.—On Saturday night a serious accident occurred on the N. York Central Railroad about 17 miles west of Rochester near a place called Bergen, in which some twelve or fourteen persons were seriously injured, by one of the cars being thrown off the track and rolling down an embankment.

The train was going at a rapid rate, when it struck a cow that was lying on the track. All the cars passed safely over but the rear one, which got detached from the others and rolled down an embankment fourteen feet high. In its rolling down it struck some apiles, which ripped the top of the car off and sent the inmates in all directions.

Among the following is a list of the persons injured: Harry S. Wells, of New York, leg broken; C. G. Vail, of Benton, Ind. back badly hurt; H. J. Winslow, Chicago much bruised; R. McDonnell, Buffalo, head and face cut and wrist sprained; J. C. McDowell, Syracuse, slight injuries. Several other persons were considerably bruised about the head and face. Adam Stewart, of Bergen, badly hurt internally. Three others were seriously hurt, one, it is feared cannot live.

The Rochester *Democrat* of Tuesday says:—"three or four of the injured men still remain at Congress Hall, Ayres' Hotel and Waverly. Mr. Winslow, of Chicago, Mr. McDonald, of Buffalo and Mr. Stewart of Bergen, are the worst sufferers, and their entire recovery from their injuries is doubtful. One gentleman received shocking cuts across the eye-brow and upon the forehead, beside a sprain of the wrist which disabled the hand and arm."—*Chicago Journal.*

THE WARD TRIAL. The trial of young Ward for the murder of Mr. Butler, the School Teacher in Louisville, commences this morning, in Elizabethtown, Harden county, Kentucky. Great interest is felt all over Kentucky in the result of the trial, as the family of the accused is one of the first in the State, and possesses almost unlimited means. It is understood that Gov. Crittenden volunteered his aid in behalf of Ward. Thos. F. Marshall is also one of the counsel for the prisoner. The best legal talent in the State is engaged on both sides. Among the many, is Mr. Carpenter, of Covington, who is for the prosecution. Col. Preston, member of congress from the Louisville district, has been summoned a witness, and reached home on Friday. The *Courier* says that Secretary Guthrie is also expected to be present at the trial. Upward of one hundred witnesses have been summoned to testify to the previous good character of the prisoner. Elizabethtown, where the trial is to be held, is thirty-five miles from Louisville, on the road leading to the Mammoth Cave.—*Cincinnati Gazette.*

ANOTHER SHOWER. Another fine shower, of an hour's duration, passed over our city yesterday afternoon. The thunder was not so heavy as on Thursday, but more rain fell, and with the warm sun afterwards gave a quickening impulse to the young vegetation. We learn that the rain of Thursday extended back as far as Whitewater. These April showers are glorious fertilizers.

☞ The *Free Democrat* invites us to explain a paragraph, in the communication which we published yesterday, relative to the new Hotel, wherein allusion is made to its "quarrel with that subject," and at the same time avows that it has said nothing "except in commendation of the project." We cannot furnish the information which the *Free Democrat* desires, for the reason that we do not know what the allusion is. Perhaps our correspondent will gratify the *Free Democrat.*

PATENT UNPICKABLE DOOR FASTENER.—These simple and ingenious contrivances to guard against Burglars and Room Thieves, are about to be offered for sale in our city by the Patentee, Mr. S. P. KITTLE. They are cheap, portable and effectual—as any one may satisfy himself by actual experiment—and may be found at MYGATT'S office, on East Water Street.

MAI FEST.—A meeting of the citizens of Milwaukee will be held at the Court House on Monday evening next, April 24th at 7 o'clock, to take into consideration the propriety of holding a May Feast this year.

POLICE COURT, April 21.

The case of the State vs. John Burke and Michael Burke on a charge of assault and battery upon Dennis Rogan, was continued over until Monday morning, at 9 o'clock; two witnesses being absent.

Several cases are pending, to be tried shortly, the defendants being in jail under the care of the jailer.

NEW ADVERTISEMENTS.

See the call for the Annual Meeting of the Milwaukee Musical Society.

J. McEWEN proposes to furnish our thirsty citizens, during the warm days and evenings of the coming summer, as well as the balance of the spring, with ICE CREAM of the daintiest sort. So we are assured by his advertisement.

"Everybody uses the MUSTANG LINIMENT"—so the fenceboards all say. Somebody must have used it, we think, and found it valuable, else everybody would not have been induced to use it. Its proprietor tells his own modest story.

CALEB WALL, never satisfied with his doings, reminds the dealers in real estate, "those who are ready to "sell at a sacrifice" and "buy at a bargain," that he is on hand to aid them in making money in these piping times.

J. H. CRAMPTON presents for the consideration of buyers, a list of valuable city lots and houses, in which good bargains are to be had.

TOWNSEND & FINKLER have three houses which the owners are ready to put in market, so that they may realize, and build better ones, doubtless.

J. HOOD sells at auction a quantity of apples, and advises our readers of the same.

Dr. JOHN SEIBERT's professional card appears in our columns. Not being often upon the sick list, we cannot testify to his ability; but we have several times seen him as a medical witness in important cases in the Circuit Court, and been gratified with his modest display of sound professional acquirements.

Kittle's curious DOOR FASTENER, which is advertised, is noticed elsewhere.

Messrs. BOYD & LEDYARD, at their very handsome new store across the river, invite the attention of the ladies to late supplies of goods received by Express. They will be waited upon by crowds these pleasant days.

Meeting of the Common Council.

A regular meeting of the Council was held on Thursday evening, the Mayor in the chair and quorum of Aldermen present.

Ald Hadley from the Harbor committee reported in favor of causing a thorough survey, plot and estimate of the river from its mouth to Cherry street bridge, preparatory to dredging and docking. The same to be done at the expense of the city.

A petition for the purchase of a new engine for company No 1, was referred to com: on Fire Department.

The Committee appointed to investigate charges against WM. R. PEARY, Wood Inspector, reported that they were entirely unfounded and recommended his re-appointment, which was *unanimously* agreed to.

The Committee to examine securities offered by the La Crosse and Milwaukee R. R. Company for the issue of $50,000 of additional City Bonds reported favorably, and the report was accepted.

The securities of the Milwaukee and Watertown R. R. Co., were presented and referred to a select committee as follows: Hadley, Geisberg, Ludington, Reed and Wunderly.

A Resolution fixing the time for meetings of the common Council at 7 o'clock, p. m., on every other Thursday, was adopted.

The following persons were appointed Bridge tenders, with the salaries annexed:

WINCHELL.—This inimitable droll had a crowded house last evening at Young's Hall, and could have had twice as many present, if the room would have held them. He performs his comical exploits in personation of character again to night, which will positively be his last appearance in this city.

EMANUEL DANNAN.—A new work entitled 'Emanual Dannan, or the boy who would not tell a lie" will be issued in a few days from the publisher, Daniel Dana of New York, and will be for sale by ARNOLD and WILSON of this city. The work is written by the Rev. W. W. ARNETT, Rector of St. Pauls church of this city. One copy has been received by the author and is got up handsomely, and contains upwards of 90 pages.

MEZZOGRAPHS. A new variety of Landscape and Portrait Painting, by a process akin to that of Daguerreotyping, may be seen at Brown's attractive Gallery in Martin's Block. The pictures look something like those done in India Ink, tho' the outlines are more distinct and the perspective perfect. They are well worth looking at, as are the Daguerreotypes in the same rooms.

A SPLENDID STORE.—We saw yesterday at Mr. Mygatt's Office the front elevation of the new store which HENRY J. NAZRO & Co. are about building on East Water St. just below the U. S. Hotel. It is to be 60 feet front 61 ft. high (four full stories) and 120 ft. deep, built of the best Milwaukee brick, with iron cornices, pillars, and window-frames, and a tinned roof. The plan combines great elegance with the most convenient arrangements for business.

STRUCK BY LIGHTNING. A man named George Jerry, in the employ of the M. & M. R. R. Co., as a brass moulder, was struck by lightning while standing near a lightning conductor on the Car and Machine shop at the R. R. depot. He was insensible for a long time, but was somewhat better towards night.

☞ A man named SWEET, a hand on the Railroad, got his hand badly smashed yesterday while coupling some cars at Powers Mill station.

STRUCK BY LIGHTNING.—The three masted schooner *Samuel Strong*, Captain Spencer of Racine, was struck by lightning yesterday, during the storm. Her mizzen topmast was shivered, and it is supposed that her mizzen mast is so much damaged as to require a new one. She ran into this port, and lies off the burnt Warehouse, near the bend of the river, to repair damages.—The schooner was between here and Racine when struck, and was loaded from Racine to Buffalo with grain.

Wreck of the Powhatan—Dreadful Loss of Life.

NEW YORK, April 21st.

It is now understood that the *Powhatan*, wrecked at Barnegat, left Havre with 312 passengers, no cargo. *One hundred and thirty bodies* had washed ashore, up to yesterday noon. The younger passengers were in their night clothes. No part of the wreck has yet come to land. The ship went ashore early Sunday morning. A great number of trunks have washed ashore.—Capt. Jennings, the wreckmaster, remained on the beach all night, but no living being was seen. A majority of the bodies washed ashore are those of women and children.

John Griffith, the only survivor from the Schr. *Manhattan*, wrecked near the same place, states that she had but one passenger, who, with the crew of 6 was lost.

The splendid steamer *Metropolitan*, the longest and strongest ever built, was launched yesterday.

AN ACT to Amend an Act, authorizing the City of Milwaukee to loan its Credit in aid of certain Rail Roads and the Acts amendatory thereof.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Sec. 1. The provisions of an act, entitled an act authorizing the City of Milwaukee to loan its credit in aid of certain Rail Roads, approved April 2, 1853, and the acts amendatory thereof, are hereby extended and shall include the Southern Wisconsin Rail Road Company, or any other Rail Road Company duly incorporated and organized for the purpose of constructing Rail Roads, to intersect and connect with any other Rail Road having its terminus in said City; which, in the opinion of the Common Council, are entitled to aid from said city: Provided, That the amount of Bonds, which under this act and the act of which this act is amendatory, shall be issued to aid in the construction of any one Rail Road, shall not exceed three hundred thousand dollars, and provided, that the aggregate amount of bonds, which shall be issued under said acts, shall not exceed fifteen hundred thousand dollars.

Sec. 2. No Bonds shall be issued or delivered to any Rail Road Company until the question of granting the credit of the city, in aid of the construction of such Rail Road, shall have first been submitted to and approved by the votes of the City of Milwaukee, in the manner provided in Section eight of the act to which this is an addition, nor until the other provisions of said act relating to the security to be given to said city are complied with to the satisfaction of the Common Council.

Sec. 3. All acts and parts, of acts conflicting with or inconsistent with this act, are hereby repealed.

Sec. 4. This act shall be in force from and after its passage.

Approved March 31st, 1854.

AN ACT to authorize the Mayor and Common Council of the City of Milwaukee to appropriate from a certain Fund to the purposes therein named.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. The Mayor and Common Council of the City of Milwaukee are hereby authorized and empowered to appropriate, from any money in the Treasury of said City received or which may be received from the proceeds of any City Bonds, which may be issued under and by virtue of an act, entitled an act to authorize the Mayor and Common Council of the City of Milwaukee to issue Bonds to raise money for the construction of a harbor at the Straight Cut in said City, approved April 1st, 1854, an amount not exceeding one thousand dollars, to pay for repairs made or to be made on the Government Piers, or either of them as the mouth of Milwaukee River: Provided, Said repairs shall have been made or shall be made hereafter in accordance with a contract or contracts approved by said Mayor and Common Council, and on file in the office of the City Comptroller.

Section 2. This act shall take effect and be in force from and after its passage.

Approved Feb'y 27th, 1854.

AN ACT to amend an Act entitled "An Act to authorize the First, Third and Fifth Wards of the City of Milwaukee, or either of said Wards to build a bridge across the Milwaukee River," approved April 2d, 1853.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. Section four of the Act to which this is amendatory, is hereby amended so as to read as follows: whenever the Common Council of the City of Milwaukee, or a majority of them, shall deem it necessary to construct a bridge from the foot of Milwaukee Street, in the third ward, to some suitable point in the fifth ward of said city, they shall levy a tax on all taxable property of the city, sufficient to construct the same; and said bridge shall be built and maintained at the expense of the city, on such plan as shall be determined by the Common Council; all laws and ordinances in force for the protection and maintainance of public bridges, and all ordinances that may hereafter be enacted for their protection and maintainance, shall be applicable to said bridge.

Section 2. This act shall take effect and be in force from and after its passage.

Mexican Mustang Liniment.

DURHAMVILLE, N. Y., December 12, 1851.

MESSRS. BRAGG & CO.:—

GENTS:—Although a stranger to you, I am not to your interest to make false statements in regard to Liniments. One year ago, I became afflicted with an enlargement of my knee joint; also a weakness which disabled me almost from using my limbs at all. I called on a physician in Syracuse and he informed me I was a dangerous man and told me to bathe it with warm water, and rub it two or three times a day, and it might go off without much trouble; if not, to call again. Some weeks passed, and it grew no better. I then called on another doctor at Oneida Depot; he told me nothing would help it but blistering and lancing. I could not consent to this, and called on Dr. L. K. T.; they gave me a mixture of iodine, calomel, &c. I tried this and it did no good. I then used five or six dollars worth of a liniment that had been recommended to me. All of those medicines I have been using for the last ten months, thorough, and according to directions, without the least possible good resulting from it. I then obtained some of your Mexican Mustang Liniment; the first bottle, a 25 cent size, I perceived straightened my joint. I am now using my fourth bottle, and my knee is nearly well. Yours, in haste,

HIRAM FIELD.

HUNTSVILLE, N. C., November 28, 1853.

MESSRS. A. G. BRAGG & CO: GENTLEMEN—Having been afflicted with the rheumatic pains for the last four years, and happening to meet with your advertisement in the papers, I came to the determination to give it a trial, as I had tried nearly every popular remedy without effect. I am now happy to say to you, that the Mexican Mustang Liniment has entirely cured me. I applied three big-coat bottles on my limbs, and am now as free from pain as I ever was in my life. My case was so strange to the people in this section, my friends are perfectly astonished at the effects of the Liniment. You are at liberty to make this public if you desire to do so.

With much respect, SAMUEL A. DAVIS.

Lumbago, Salt Rheum, Tetter, Eruptions, Ringworms and Piles, are cured in a very short time by applying the Mustang Liniment according to directions given with the bottles.

BURNS and CAKED BREASTS, SORE NIPPLES, PILES, RHEUMATISM, and CORNS on the feet, are easily cured by a thorough application of the Mustang Liniment for those complaints.

☞ The following is but a small synopsis of what the Mustang Liniment will cure:

One bottle, 50 cent size, is warranted to cure the Scald Head.

One to two 50 cent bottles will cure the Caked Breast.

One 25 cent bottle will cure the Caked Breast.

One small bottle is certain cure for Sore Nipples.

One to three dollar bottles is warranted to cure the worst case of Rheumatism in any form, and one 50 cent bottle will cure any case of recent standing.

One to two small bottles will cure the Neuralgia.

One bottle, 50 cent size, will cure the severest Burn or Scald.

One dollar bottle will cure the Spinal Disease.

One small bottle will cure the Piles in any stage of the disease.

One to two 50 cent bottles will cure the Scrofula, in any case.

One small bottle will cure Chapped Hands.

Two to four bottles, 50 cent size, used in connection with the recipe for "Old Soreg," accompanying each bottle, is warrants to cure the severest case of Salt Rheum commonly called Fever Sores on the legs or shins, that have resisted all other treatment.

One dollar bottle will cure the Ring Bone, Splint or Scratches in horses.

One dollar bottle will affect a permanent cure of the Spavin, Sweeny or Poll Evil.

One 50 cent or one dollar bottle will cure all cases of Galls, Cracks, Fresh Cuts and Lameness.

A beneficial effect is always experienced from the first application and a perfect cure is warranted when used according to directions.

CURE OF SALT RHEUM

OF TEN YEARS STANDING.

A lady residing near Lynn, Osage Co., Mo., had the Salt Rheum on her head during the last 10 years, causing pain and discomfort. She had tried various remedies, of a powerful character, spreading all over her head and face in the most frightful manner, so much so that her life was despaired of. She tried every remedy her doctor could prescribe but all to no effect. One of her friends then recommended the Mustang Liniment as the last resort. Accordingly a bottle was procured and used as directed; the result was an immediate relief, and an entire cure in a few weeks, commencing the use of the Liniment. Here are her own words to us a few days since:

"I never expected to see so many pleasant and happy days as I have since I have used your Mexican Mustang Liniment. If the prayers of an afflicted woman can benefit you, then I fredly bestow mine. I used about four bottles of your Liniment and am now as well as I could wish for."

PRICES.

It is put up in bottles of three sizes, and retail at 25 cents 50 cents and $1 per bottle. The 6's or large one dollar contain 50 and 100 per cent more Liniment in proportion to their cost, so that money is saved by buying the larger sizes.

For sale by A. G. BRAGG & CO., sole Proprietors.—Principal office, corner of Third and Market streets, St. Louis and 304 Broadway, N. Y.

☞ THIS MUSTANG LINIMENT is sold at all of the Drug Stores in Milwaukee, and by storekeepers and druggists generally all over the State of Wisconsin. Principal Wholesale Agents in Milwaukee, Cate & Hopkins, Sash Johnson, & Bowen, Booth & Son, H. Fess, Jr., and A. F. Clark.

☞ Remember the 50 cent and $1 bottles are much the cheapest. Ask for A. G. BRAGG & CO'S. MEXICAN MUSTANG LINIMENT. ap22

Holloway's Ointment and Pills, the best Remedies for the cure of Bad Legs.—Mrs. Heppel, of Blyth, near Morpeth, was afflicted with a dreadfully bad leg, for which she consulted the most eminent medical men in that neighborhood, but it would not yield to their treatment. Her health suffered severely, and the state of her leg was terrible; the ulcers rapidly increased in size, and the pain was most agonizing. In this state she commenced using Holloway's Ointment and Pills, and after continuing them for some short time the leg was completely cured, and she is now in the enjoyment of excellent health. Mr. Wilkinson, druggist, Blyth, vouches for the accuracy of this statement.

DEAD SHOT

FOR BED BUGS.

All good Housekeepers will be glad to hear of an article that will kill bed bugs, so that they will *stay killed*. The Dead Shot does this entire and complete. Being a vegetable gummy extract, it does not evaporate but retains its destructive efficacy along time, presenting a bed of certain death to these noxious tormentors of our nightly rest. Sold by ap22md H. BOSWORTH & SON.

People of America!

Thousands of you have suffered for long years with Rheumatic Pains, Ulcerous Sores, Swelled Legs, Piles, and many other complaints, that all the remedies you have tried have failed to cure, and your physicians have pronounced incurable—*you need suffer no longer!*

A remedy is discovered and placed within the reach of all, that will cure all these complaints and make you young again. Dance with joy—for you shall be healed. This great remedy is the

Mexican Mustang Liniment!

Important and extraordinary cures are daily reported to us as having been performed by the use of this Liniment, and none who use it are disappointed in its effects.

A WONDERFUL DISCOVERY has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks:—"It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and variedchanges produced upon them when introduced into the stomach, and subjected to the process of digestion The Hygeana is for sale at all the druggists throughout the country.—*New York Dutchman. GOOD EVERYWHERE.—Dr. A. L. Adams' Liver Balsam is as good in one climate as in any other. It has been thoroughly tested in all varieties of climate, as well as for all varieties of diseases in the United States. It has materially secured a wide patronage and most unqualified recommendations from all directions.

It is sure, if taken according to directions, judiciously, to fulfil its mission, viz. health to the sick in all lands—This the hoping patient can safely rely upon. Will you suffer, my afflicted reader, a disease which is now undermining your constitution, destroying the main springs of your life while you have a remedy at your door, which will be effectual in producing a redemption and saving you from a premature death?

Then we ask, had you not better commence at an early period of time to extirpate your disease in its first stage? This will be the most reasonable method for you to take and in so doing get Dr. A. L. Adams' Liver Balsam—take it and you will rejoice in the free and full enjoyment of good health.

NOTICE.

On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont by me) printed and bound, ready for those wishing the use of him the first season, to enter their names. Season to commence the second day of April, and end the 31st day of July. He is limited for the season at fifty-two mares, two of them myown. He is distinctly those two within the Morgan Stock that stands so high in Vermont, that the *original* Black Hawk was sired by the Old Sherman Morgan, the grand sire of my horse. If so, the same cross blood can be found in this Stock, and at a far less expense than to import them from Vermont; that was one reason for my bringing Comet Morgan West. His pedigree is fully authenticated.

NOTICE.

On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont by me) printed and bound, ready for those wishing the use of him the first season, to call their names. Season to commence the second day of April, and end the 31st day of July. He is limited for the season at fifty-two mares, two of them my own. It is claimed by those owning this Black Hawk Stock that stands as high in Vermont, that the *original* Black Hawk was dired by the Old Sherman Morgan, the grand sire of my horse. If so, the same cross blood can be traced in this Stock, and is far less expensive and highway than to send from Vermont; that was one reason for my bringing Comet Morgan West. His pedigree is fully authenticated.

THE WAY TO THE ALTAR.—MATRIMONY MADE EASY, Or, How to Woo a Lass.

"Love rules the court, the camp, the grove,
For love is Heaven, and Heaven is love."

So sang the bard; yet thousands pine
For love in vain, the livelong day—
Who did they know some gentle charm,
The hearts of those they love to warm,
Might live, might die, in bliss supreme,
Possessing all of what they dream.
The road to Wedlock would you know,
Delay not, but to ROUNDOUT go.
There flies and frost his gloomy wings
A shadow falls on living things.
There sieze the moments as they pass,
Ere fall the last sands through the glass;
At least the present is your own,
While all the future is unknown.
A happy marriage man or maid
May now secure by ROUNDOUT'S aid.

Professor ROUNDOUT, of New York, formerly of Sweden, where he has been the means of bringing about thousands of happy marriages, will send to any address, on receipt of one dollar, a Scientific Treatise, which contains Ladies or Gentlemen to win the affections of as many of the opposite sex as they may desire. The process is so simple, but at the same time, that it is adapted to, irrespective of age, appearance or position; and last, though not least, it can be arranged with the utmost care and delicacy. Address Professor ROUNDOUT, New York City, post paid.

I have no agents, and any person advertising themselves as such are also swindlers, and I will prosecute them as the law directs.

N. B.—This is no humbug, but one of the greatest sciences the world ever produced, which thousands of ladies and gentlemen in the City of New York can attest to. No one will ever regret the price paid for such an invaluable secret. All letters properly sealed and plainly directed may be sent at the Professor's risk. mr21-3mowly McD

THE BUFFALO EAGLE IRON WORKS CO.

Propose to pay Particular attention to

Architectural Iron Work.

WE are prepared to Manufacture IRON FRONTS for Stores and Public Buildings, with the

Patent Fire Proof Rolling Shutters.

These Shutters are the same that are now so generally used in New York, and may be put in any Window, Small or Large, and it arranged before erection at the building, may be used without in the least affecting the appearance of the house. They can be only used First Fire Proof Shutters, and do not appear to the eye when rolled up.

When desired we will furnish the Plan for Store Fronts, (with or without the Iron Shutters) with estimate for the Cost of the work finished ready for delivery. To our Western friends we think this arrangement will be desirable, for they thus are enabled to know without experiment what the Front is to be, and what it is to cost.

Where the Iron Shutters are used we will furnish a man to superintend the erection of the Iron Front and the setting of the Shutter.
